

AMIT KUMAR VISHNU

Full Stack Developer | MERN | React.js | Node.js

+91-8340632694 | amitkvishnu8@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with experience building scalable, production-ready web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), Next.js, and TypeScript. Skilled in designing and delivering 50+ RESTful APIs, implementing secure authentication (JWT, RBAC, MFA), and building real-time features with Socket.IO. Hands-on experience with SQL/NoSQL databases (MongoDB, MySQL, PostgreSQL, MariaDB), payment gateway integration, and cloud deployment on AWS EC2/S3. Proven track record delivering secure, multi-tenant enterprise applications for aerospace and logistics platforms.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript
Frontend	React.js, Next.js, HTML5, CSS3
Backend	Node.js, Express.js, Socket.IO, JWT Authentication, RBAC, Multi-Factor Authentication (MFA)
Databases	MongoDB, MySQL, PostgreSQL, Firebase (Firestore, Firebase Cloud Messaging)
Cloud & DevOps	AWS (EC2, S3, ECR, IAM), Docker, Nginx, PM2, Git

PROFESSIONAL EXPERIENCE

smartData Enterprises (India) Ltd. Sep 2024 - Present
Software Associate - Full Stack Developer

- Engineered and delivered **50+ RESTful APIs** and backend services using Node.js, Express.js, MongoDB, and PostgreSQL, powering core functionality across multiple enterprise applications.
- Implemented secure JWT-based authentication, real-time communication with Socket.IO, and push notification systems using Firebase Cloud Messaging, improving system responsiveness and user engagement.
- Integrated payment gateways and managed end-to-end AWS cloud deployments, improving application scalability, reliability, and overall performance.

PROJECTS

AerospaceSMS Platform

React.js, Next.js, Node.js, Express.js, MySQL, Sequelize ORM, AWS

- Built a multi-tenant Aerospace Safety Management System (SMS) with Super Admin, Client Admin, and Employee role hierarchies, enabling secure, isolated data access across multiple client organizations.
- Designed and developed secure REST APIs with Role-Based Access Control (RBAC) and Multi-Factor Authentication (MFA) using Node.js, Express.js, and Sequelize ORM.
- Implemented end-to-end safety workflows covering incident reporting, risk assessment, investigations, and corrective actions.
- Contributed to a database migration from MongoDB to MariaDB, improving reporting capabilities and long-term system scalability.

Earthworks

Node.js, Express.js, MongoDB, React.js

- Developed and maintained backend services and a Super Admin panel for a production mobile application supporting vendor and platform operations.
- Built a role-based Super Admin dashboard in React.js with secure access controls for managing users, vendors, and platform operations.
- Built and maintained RESTful APIs using Node.js, Express.js, and MongoDB, supporting core mobile application functionalities.

EDUCATION

Uttarakhand Technical University 2020 - 2024
Bachelor of Technology in Computer Science and Engineering CGPA: 8.0/10
