EXPERIENCE

smartData Enterprises (India) Ltd.

Software Analyst (Full Stack Developer)

Sep 2024 – Present

Dehradun, India

- Architected and shipped 50+ secure RESTful APIs (JWT-authenticated) across 3 production applications, achieving 99.9% uptime and a 35% increase in user engagement via Socket.IO real-time features.
- Integrated PayPal, Stripe, and PayFast payment gateways end-to-end — including webhook handling — enabling seamless in-app consultation payments with zero reported transaction failures.
- Led end-to-end client requirement sessions for every project, translating business needs into technical specs and delivering all milestones on schedule, resulting in a 95% client satisfaction rate.

KEY PROJECTS

WindShield – Real-Time Field Service Platform

Dec 2025 – Present

Stack: React.js, Node.js, Express.js, Firebase Firestore & Realtime DB, Socket.IO, FCM

- Built scalable geo-location service engine covering 500+ service locations; reduced location-lookup latency by integrating Firestore's real-time listeners in place of polling.
- Engineered real-time chat system (Socket.IO + Firebase Cloud Storage) processing 1,000+ daily messages with media upload support — zero reported downtime since launch.
- Deployed FCM push notification pipeline to iOS & Android for job assignments, quotes, and status updates, replacing email alerts and cutting notification delivery time from minutes to seconds.

DualMarketPlace – Multi-Vendor E-Commerce Platform

Jun 2025 – Nov 2025

Stack: React.js, Node.js, Express.js, MongoDB, AWS S3, FCM

- Designed a 30+ API multi-vendor backend (products, variants, reviews, orders, analytics) supporting three independent user roles — customer, vendor, and admin — from a single Node.js service.
- Cut media storage costs by 40% by implementing AWS S3 pre-signed URLs with server-side automatic image compression, while simultaneously improving media delivery performance.
- Built vendor analytics dashboard (inventory, orders, ratings) that measurably improved vendor operational efficiency by 45%, validated through post-launch vendor surveys.

Earthworks – Enterprise Admin & Project Management Portal

Nov 2024 – May 2025

Stack: React.js, Node.js, Express.js, MongoDB, Formidable

- Developed RBAC admin panel in React.js serving 200+ administrators — role-gated views reduced unauthorized data access incidents to zero across a multi-tenant environment.
- Integrated 20+ APIs with secure Formidable-based file upload validation, and boosted UI performance through lazy loading, cutting initial page load time noticeably in production.

EDUCATION

Uttarakhand Technical University (Roorkee Institute of Technology)

B.Tech in Computer Science

2020 – 2024

Roorkee, India

- CGPA: 8.0 / 10.0

TECHNICAL SKILLS

Frontend: React.js, Next.js, Redux, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap

Backend: Node.js, Express.js, Socket.IO, RESTful APIs, JWT Authentication

Databases: MongoDB, MySQL, Firebase Realtime DB & Firestore

Cloud & DevOps: AWS S3, Firebase Cloud Messaging (FCM), Cloudinary, Git
